We've got you covered.

Whether you're a member of law enforcement, a tactical response unit, or the armed forces, organization and readiness are key components to functioning at your best.

Meet the Argos line of versatile weapon storage systems, designed to keep weapons, equipment, and ammunition secure, protected, and ready to mobilize.

This series of enclosed cabinets and open racks are fully customizable with interchangeable components for different weapons and gear.

Argos weapon storage products are engineered to maximize efficiency and the use of space, all while staying organized and ready.

Load it up, lock it down.

Maximum security and a maximum level of readiness go hand in hand. Weapons, ammunition, computers, protective gear - you need them ready to mobilize, but remain secure when not in use.

Argos' uniquely versatile cabinet & rack solutions provide all of that, with heavy duty welded steel construction and a wide selection of components, you can easily accommodate virtually any type of equipment and store it worry-free.

1 Heavy Duty Construction

Welded solid steel construction that includes enhanced security features including reinforced doors with full length piano hinges and complete extension lock bars.

2 Adjustable Components

An extensive selection of fully adjustable brackets, shelves, bases and mounts to store rifles, shotguns, pistols, ammunition, optics, body armor, gear and other accessories.

3 Various Locking Options

Argos cabinets feature 5- or 7-point locking mechanisms that are secured with a key lock or padlock hasps. All variations comply with US Military standards.

4 Multiple Sizes

Argos offers 24" and 42" widths and heights ranging from 24" to 84" to meet your specific weapons storage needs.

Hinged Door Cabinets

Traditional style cabinets that allow for maximum storage utilizing the entire width of the cabinet. The clearance permits full access to stored weapons, gear, and accessories. The ventilated pattern provides airflow and allows visual inventory of stored items.

Bi-Fold Door Cabinets

The design of this universal weapons cabinet incorporates bi-fold doors that fully recede into the cabinet. This feature allows for the cabinets to be utilized on high density systems or in areas where floor space is at a premium, while still meeting US Military security standards.

Open Rack Systems

Designed for use in secured rooms or facilities, the open rack systems offer the same features of our cabinet selection with the added benefit of being readily accessible, having flexible heights and widths, and offering affordable layouts.

Equipped for your equipment.

Got long guns, pistols, and ammo boxes to secure? How about helmets, riot gear, body armor, or night vision goggles? We've got components to safely house all of those things. We've even got your parachute storage in the bag.

The components to our weapons cabinets and racks include numerous bases, rifle and pistol brackets, shelves, hooks and bins to accommodate various firearms, ammunition, tactical gear and accessories. We'll make sure that all of your gear is stored neatly, safely, and easily accessible.

3 capacity horizontal rifle mount

6" ammunition storage bin

Upper shelf with slip-resistant mat

Handgun cradle with magazine storage

General purpose shelf

Pistol peg rack

Bin bar with storage bin

Upper shelf with buttstock dividers

Obround transport barrel retention bracket

Standard barrel/stock bracket

Increase your storage, not your space.

Condensing storage to one location makes retrieval faster and inventory easier to control. By incorporating a high density MobileTrak® system, you ensure that you are making the most of your available storage area.

Argos cabinets and racks integrate seamlessly into our MobileTrak® systems, maximizing your storage space and utilizing minimal floor space. MobileTrak® is also easily expandable on location as needs grow and is easy to relocate should the need arise.

Live action demonstration.

Our products speak for themselves. And it isn't just our weapons storage cabinets that get the job done. We offer storage solutions for evidence storage, record keeping, computers security, personnel lockers, general equipment storage and more.

Clockwise from top left: Parachute storage in the training facility of Kentucky Air National Guard, Louisville, KY; Evidence storage at Watertown Police Department, Watertown, MA; and personal storage lockers in the locker room at Woodway Police Department, Woodway, TX.

CUSTOMIZABLE, VERSATILE, DURABLE AND GUARANTEED

Our customer service team will work with you to create a solution for your home, business, office or law enforcement agency that conforms to your current and future space and storage needs.
