

QwikLink Cart™

The QwikLink Cart™ is the premiere storage and transport option for tablets and e-readers. The cart not only provides a secure storage point, but it also charges and has an optional syncing feature, to keep the whole class up to date on the latest software, programs, and files.

- Available in capacities of 16 and 32. The 16 capacity is expandable to 32 in the field to accommodate classroom growth.
- Sync port on side of cart allows one computer to be used to update the entire cart of tablets. (charge/sync model only)
- Hinged shelves open easily to feed power cables through and close tightly with protective foam to keep cords from moving once in place.
- Locking tambour doors keep contents secure.
- Optional Pop-Up Power Center provides power for electronics used on top of the cart.
- All charge/sync model carts include power cables.
