Jeter Storage Solutions

Not All Storage Rooms Are Created Equal.

That's why our storage solutions are custom designed to adapt to your specific environment and needs. From the simplest form such as our lateral mobile system to our most heavy-duty electrical high-density system, we have the solution that's right for you!

*New space development ? Merger or acquisition activity ? Facing an upcoming office move ?
Increasing storage and filing needs? Unique storage and space planning challenges ?*

Jeter has worked with a diverse number of clients in a variety of industries.

We offer a full range of products and services to facilitate the implementation of your overall storage and space planning needs.

Government and Military Storage

GSA Contract

Jeter holds GSA Contract #GS-28F-1005C for our high-density movable filing systems, filing & storage cabinets and 4-post shelving and mobile carts.

Why Jeter for government and military storage ?

Managing specific storage needs efficiently and cost effectively, while meeting freedom of information and privacy requirements, is a challenge to all levels of government. Military bases have a hospital, clinic, weapons storage, archives center, etc. and all require individual solutions for efficient storage.

Using a high-density mobile storage system will provide convenience, security, quick access and personnel safety. From weapons to parachutes to equipment and confidential files, we have the complete storage solution to help economize space and lower your storage costs.

Public Safety and Justice Storage

Store Anything

Store weapons,
evidence, medical
supplies, linens, laundry,
tools, pharmaceuticals,
records and more!

Why Jeter for public safety and justice storage ?

With law enforcement offices, crime labs, courthouses, and correctional facilities facing an increase in arrests, court cases, and inmate populations, it is critical to optimize your storage capacity and provide a secure environment for all your storage needs. Our storage systems are perfect for not only records and files, but also for weapons, medical supplies, pharmaceuticals, linens and laundry, uniforms, personal effects, and will help provide stronger integrity of evidence throughout the chain of custody. If you consider repurposing existing storage equipment, by adding a few new components you can transition one department's equipment to satisfy another department's storage needs at minimal cost.

Healthcare Storage

New Changes

Issues emerging in today's healthcare sector are forcing a change in storage and space planning requirements.

Why Jeter for healthcare storage ?

Protecting patient information, meeting regulatory and legislative requirements and managing the hybrid environment are just some of the issues emerging in today's healthcare sector. We can design a storage solution for not only your patient files, but also for archived records, radiology films, multi-media library resources, pharmaceuticals, medical supplies, samples, linens and laundry, personal effects, sterile materials, freezer storage and more. Let us help you reduce your storage costs by optimizing the storage areas in your facility for increased storage and efficiency.

University, Library and Museum Storage

Why Jeter for university and library storage ?

With school populations on the rise and with shrinking budgets, the education sector is looking for the most cost effective way to maximize their storage capacity to store not only a multitude of academic records, but also books and media in their libraries, musical instruments and sheet music, archived items, athletic equipment and more. With our multi-usage storage solutions, you will gain additional space for increased storage and realize cost reductions.

Why Jeter for museum storage ?

Museum collections and specimens require unique storage solutions. Jeter's high-density mobile storage shelving will compact your collections safely and can efficiently store items in varying shapes and sizes in a full range of shelving types and accessories. Whether your collection consists of archaeological artifacts or rare paintings, we can design a solution that ensures your collections are well protected and easily accessible when needed.

Retail & Inventory, Box & Archival Storage

Why Jeter for retail and inventory storage ?

Achieve maximum storage space for your inventory and free up valuable retail space by using Jeter's mobile shelving systems. Using the proper storage products offers maximum storage density and improved accessibility. Space utilization is improved by narrowing or eliminating aisles and using the available height for additional storage. Jeter offers several storage options that can be closed and locked for complete security from unwanted theft of merchandise.

Why Jeter for box and archival storage ?

From storage of archived materials, books, boxes, media, magnetic tapes, CDs or DVDs, film cans, files, tools, videos, bulk storage – basically any item that requires storage - Jeter can develop a storage solution to fit your exact needs. Our high-density mobilized storage systems provide a unique and complete multi-usage storage solution contributing directly to cost reduction and creating more available space inside your facility for increased storage space and enhanced overall efficiency.

Our solutions are not one-size-fits-all!

Whether you are trying to double your storage capacity, create extra space, lease less space, lower your operating costs, centralize your storage area or reduce new construction costs, we can offer a total solution which incorporates different options into a comprehensive space planning program designed just for you. A good space planning program can manage your costs associated with storing anything and enable you to better meet your operational goals.

About Jeter

For decades, Jeter has been incorporating best practices in file storage equipment and supplies to solve complex storage and information management challenges in a variety of industries. From our high-density shelving and mobile file storage to optimized room layout design and customized file folders, we help to ensure that your physical storage is operating at its most efficient and highest capacity.

No matter what your industry, Jeter has the core competencies - our people, philosophies and proven methodologies - to design and implement a customized information management program and storage system to fit your unique needs and enhance your space planning efforts.

Make the smart choice - choose Jeter to ensure that your physical storage is performing at peak efficiency in the least amount of space.
