

Heavy Duty Reinforced Shelving

Superior Strength

For the strongest shelving system available, Tennsco's Heavy Duty Reinforced Shelving offers load capacities up to 4,000 pounds per shelf and 13,000 pounds per section. The combination of 16-gauge steel shelves with a 14-gauge support framework makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Choose from eight shelf sizes (ranging from 36" w x 18" d to 96" w x 36" d) and three post lengths to match your storage requirements. Braceless construction allows easy access from all sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves – simply slide items on and off.

Designed to Handle Your Toughest Loads

Unique combination of shelf supports with cross beam supports creates a super-reinforced unit and prevents deformity even under heavy loads.

Superior Strength

Our rivet attachments offer superior strength to shelving and with no need for nuts and bolts, it makes assembly a snap!

Bulk Storage Rack

Big and Heavy Storage

Here's a great solution for storing bulky items. Tennsco's Bulk Storage Rack has shelf capacities between 2,150 and 4,150 pounds (depending on shelf size). Upright assemblies are pre-welded for strength and will support up to 17,000 pounds, based on 24" centers. Choose from two styles of beams which use a unique tapered finger design to lock into the uprights on 2" centers. Deck supports span between beams and can be positioned as needed on 6" centers. Construct units from four widths (48", 60", 72" & 96"), five depths (24", 30", 36", 42" & 48") and seven heights (72", 84", 96", 120", 144", 168" & 192"). Choose from corrugated steel, particleboard and wire decking. This product is Tennsco's fastest and easiest shelving to assemble.

Easy to Assemble; Easy to Reconfigure

Tennsco Bulk Shelving offers easy adjustability and expandability to fit your specific storage needs for today AND tomorrow.

1 Assembles Easily

Bulk storage units go together fast and easy — beams simply slide into place. Assembly takes less than half the time of most other shelving products.

2 Extra Strength

Our standard Rolled Formed Steel Beams provide added strength at front and rear of shelf edges.

3 Shelf Support Options

Optional Box Beam is used to hold wire decking and is reinforced with a box beam brace.

4 Economical

Adjacent units share a common upright for greater economy.

5 Preassembled Uprights

Welded uprights make installation fast and convenient.

Bulk Storage Decking Options

Corrugated Steel

Featuring a rigid surface, with minimal deflection under load, corrugated decking provides a sturdy option for general purpose storage. Its smooth finish allows easy sliding of stored items on and off the shelving. Flame retardant, attractive corrugated shelves are light and easy to install.

Wood Decking

For heavy-duty applications, economical wood decking is a great choice.

Flat Wire Decking

Wire decking provides better air flow and visibility of your stored items and meets factory fire codes. Available in flat or waterfall.

Waterfall Wire Decking
