1. Place the two End Assemblies (1 & 2) upside. Position the Front Rail (3) with the larger of the two flanges toward the floor. Position the Rear Rail (4) with the Dust Cover attachment holes toward the floor. Secure these Rails to the End Assemblies with two Screws (E5) and two Nuts (E6) per end. DO NOT tighten screws at this time.

2. Position the Foot Rail (5) with flat surface toward the floor. Attach the Foot Rail to the End Assemblies with four Screws (E5) and Nuts (E6). TIGHTEN all rail attaching screws now.

3. Turn assembled table to an upright position. MAYLINE recommends that two people perform this task.

4. Fasten one Tilt Rod Guide (E12) to each side of the table using one Bolt (E11) and one Washer (E10) per guide. DO NOT tighten completely.

5. Insert Tilt Rod Assembly (7) through the Spring (E17). Insert the Rod and Spring through the hole in Guide and tighten in place with Plastic Knob (E9).

6. Separate the Drawer Slides (9) into two pieces. Extend the Slide to the full extension. Remove the smaller portion (9B) by pressing the plastic release and pulling.

7. Attach the large Slide portion (9A) to the Center Support (8) using two Screws (E14). Begin attaching the Slide using the large 'Horizontal' slot in the last mounting tab. Repeat this procedure on the opposite side of the Center Support.

8. Attach one large Slide portion (9A) to the brackets on the R.H. side of the table using two Screws (E14). Repeat this procedure on the L.H. side of the Table.

9. Attach the smaller Slide portion (9B) to each side of the Drawer body using three Screws (E15) and three Acorn Nuts (E16). Repeat this procedure for the Shallow drawer.

10. Install the Drawer Pull (E13) onto the Tool Drawer head using Screws (E3).

11. Install the assembled Center Support into the Base. Attach the Support with two Screws (E3) and two Nuts (E4) per rail.

12. Install the drawers into the assembled table.

13. Lay the Dust Cover (6) onto the table. Align the holes in the Dust Cover with the holes in the Rails and attach with Screw (E7).
